

OFFICIAL OPERATIONAL & TESTING MANUAL

Commute Companion

End-to-end user manual covering the verified Commuter and Driver journeys, Realtime Location Tracking, Voice AI Assistants, and Demo Verification Overrides.

System Platform	Target Audience	Document Status
React Native / Expo / Supabase	Commuters, Drivers, QA & Evaluators	Production Ready (v1.2)

✓ Prerequisites & System Permissions

Ensure device permissions are granted when prompted: **Foreground Location** (for GPS centering & live route broadcasting), **Camera** (for ID verification & Live Face Capture), and **Microphone** (for the Floating Voice AI Assistant).

1 Commuter User Flow

1 Register Account

Welcome → Sign Up

Tap **Get Started** or **Sign Up**. Fill out:

- **Full Name** (e.g., *Maria Santos*)
- **Email Address** (e.g., *maria.commuter@example.com*)
- **Phone Number** (11-digit mobile, e.g., *09171234567*)
- **Password & Confirmation** (minimum 8 characters)

Tap **Create Account**.

2 Verify Account in Email

User Email Client

Open the inbox of the registered email address. Find the verification email from *Commute Companion* and tap the link **Confirm your email**. Return to the app.

3 Sign In

Sign In Screen

Enter registered email and password → Tap **Sign In**. The app loads directly onto the interactive Home Map centered on your current GPS location.

4 Set Commute Route

[Home → Set Route](#)

Tap the blue [Set Route](#) pill on the Home bottom card (or via *Rides → Pin Route on Map*).

- **Origin:** Tap map or select (e.g., *Sudlonon / San Remigio*).
- **Destination:** Select drop-off point (e.g., *Bogo City Hall / Bogo*).

Review the polyline road routing with distance/duration and tap [Save Commute Corridor](#).

5 Post in Community Hub (Voice AI)

[Floating Mic → Hub Tab](#)

Tap the floating blue **Microphone FAB** on the bottom-right to trigger the Voice Assistant Sheet.

Voice AI Command:

Speak: *"Good morning, fellow commuters"* (or type it in the prompt). The assistant detects the broadcast intent. Tap [Confirm](#). Check the live post in the **Hub** tab!

6 Back to Home Page and Broadcast Location

[Home Map Tab](#)

Return to the **Home** tab. On the right side of the map, tap the **Eye icon FAB** ([routeVisible](#)). When active (highlighted blue), your device streams high-accuracy GPS coordinates to all other commuters along that corridor via Supabase Realtime presence.

7 Mention User in Community Hub

[Hub Tab → Profile Modal](#)

Go to the **Hub** tab. Tap any user's Avatar on a post to open their **Profile Card Modal**. Tap

[Mention in Community Hub](#). Type your question (e.g., *"@Juan Are you heading to Bogo this afternoon?"*) and tap [Post](#). The user receives an instant mention notification.

8 Verify Account in Profile Page (With Override)

[Profile → Verification](#)

Tap the **Profile** tab → Tap [Identity Verification](#).

⚡ Demo Instant Override Available:

Scroll to the bottom of the verification screen and tap [Demo: Instantly Verify Me \(Override\)](#) ⚡. Bypasses manual review and immediately grants the green verified badge.

9 Post a Ride Request in Rides Tab

[Rides Tab → Search Rides](#)

Under the *Search Rides* segment with your active route set, tap [Post 'Looking for a Ride' Request](#) (megaphone icon). Choose seats needed (e.g., *1 Seat*), set desired departure date/time, add optional notes, and tap [Submit Request](#).

10 Book the Requested Ride with Live Face Capture

[Rides → Trip Details → Book](#)

Browse open trips matching your route → Tap trip → Tap [Request to Join Ride](#). Perform the required **Live Face Capture**:

- Tap [Take Live Photo](#) inside the oval camera frame.
- Confirm verified snapshot → Tap [Confirm & Request Booking](#).

11 Send Messages in Ride Group Chat

[Ride Screen → Trip Chat](#)

Inside the Trip screen (`/ride/[id]`), tap [Open Trip Chat](#). Type a coordination message (e.g., *"Hi driver, I am at the corner in a blue jacket"*) → Tap **Send**. Realtime broadcast syncs across driver and all passengers.

12 Leave a Rating for Driver

[Post-Trip Rating Screen](#)

Once the driver completes the ride, the **Rate Your Trip** screen appears. Select star rating (1–5), choose compliment chips (*Safe Driver*, *Punctual*, *Clean Vehicle*), write optional feedback, and tap [Submit Rating](#).

13 View Activity Tab to Check Past Rides

[Activity Tab](#)

Tap the **Activity** tab. Review past rides, dates, and total fare paid. Tap any past ride card to view the comprehensive **Trip Summary** breakdown (base fare, platform fee, driver details).

14 Explore Profile Screen

[Profile Tab](#)

Explore commuter statistics, verification badge, ICE Emergency Contacts, and switch between **Dark Mode** and **Light Mode**.

15 Logout[Profile → Bottom](#)

Scroll to the bottom of the Profile tab → Tap red **Sign Out** → Confirm in popup dialog.

2 Driver User Flow

1 Register Account

[Welcome → Sign Up](#)

Register driver candidate account with Full Name, Email, Phone Number, and Password → Tap [Create Account](#).

2-3 Verify Email & Sign In

[Email → Sign In](#)

Click [Confirm your email](#) in the driver inbox → Return to app → Sign in with driver credentials to land on the Home map.

4 Set Commute Route

[Home → Set Route](#)

Tap [Set Route](#) on bottom card → Pin driver regular corridor (e.g., *Sudlonon → Bogo City Hall*) → Tap [Save Commute Corridor](#).

5 Post in Community Hub (Voice AI)

[Floating Mic FAB](#)

Tap the floating blue **Microphone FAB** on the Home screen.

Voice AI Command:

Speak: *"How is the road today?"* The assistant classifies the intent as a road condition query tagged traffic.

Tap [Confirm](#). Check the post in the Hub feed!

6 Become a Driver (With Override)

[Profile → Become a Driver](#)

Go to **Profile** → Tap [Become a Driver](#).

Demo Instant Override:

Tap [Override Verification \(Demo\)](#) at the bottom of the form. Select: **Tricycle (TODA)** [3 seats], **Sedan (Private)** [4 seats], or **Motorcycle** [1 seat]. Instantly registers vehicle and upgrades role to driver with verified driver badge!

7 Offer Ride to Commuter Request with Live Face Capture

[Rides Tab → Post a Ride](#)

Go to **Rides** tab → Switch to [Post a Ride](#) segment.

- Set seats, departure time, and passenger contribution (e.g., ₱50).
- Under **Live Face Verification**, tap [Capture Live Verification Photo](#).
- Snap selfie in camera frame → Tap [Create & Offer Trip](#).

8 Send Messages in Ride Group Chat

[Trip Screen → Trip Chat](#)

Open created trip → Tap [Trip Chat](#) → Send departure notice: *"Leaving in 10 minutes from town terminal."*

9 Start the Ride

[Trip Management Screen](#)

In the **DriverBookingsList**, inspect commuter requests & live face photos. Tap [Accept](#). When departing, tap the green [Start Trip](#) button. High-accuracy GPS broadcasting activates, moving your driver vehicle marker along the polyline in real time. The full-width *"Active Trip in Progress"* card appears on Home.

10 Complete Ride

[Ongoing Trip Screen](#)

Upon arrival, tap [Complete Trip](#) → Confirm. System confirms passenger drop-offs, credits driver payout, and records the 10% platform fee balance.

11

View Activity Tab (Earnings & Past Rides)

Activity Tab

Open **Activity** tab. View total driver revenue, completed trip counts, average driver star rating, and tap the completed ride card to review the fare breakdown.

12

Simulate Payment of Platform Fees

Profile → Outstanding Fees

In **Profile**, locate the **Outstanding Platform Fees** card (shows accrued 10% fee, e.g., ₱15.00). Tap **Pay** → On the Pay Platform Fee screen:

- Tap **Pay Full Balance**.
- Tap **Authorize Simulated Test Payment**.

The built-in demo simulator authorizes the transaction and updates Supabase. Your balance resets to ₱0.00.

13-14

Explore Profile Screen & Logout

Profile Tab

Inspect *My Vehicle* specs, driver rating breakdown, and Transaction Summary. Scroll down and tap red **Sign Out** to finish the testing flow.

Quick Reference: Demo Shortcuts & Overrides

Action	How to Trigger	System Result
Instant Commuter Verification	Profile → Verification → Tap "Demo: Instantly Verify Me (Override) ⚡ "	Bypasses manual government document review; sets verified badge immediately.
Instant Driver Setup	Profile → Become a Driver → Tap "Override Verification (Demo)"	Select Tricycle / Sedan / Motorcycle; registers vehicle and enables driver status.
Simulate Platform Fee Payment	Profile → Outstanding Platform Fees → Pay → Tap "Authorize Simulated Test Payment"	Deducts platform fee balance in database without requiring a real banking gateway.
Voice AI Post to Hub	Tap Floating Blue Mic FAB → Speak phrase → Tap "Confirm"	Parses audio transcript, formats post preview, and publishes to Route Community feed.
Broadcast Presence	Home → Tap Eye icon FAB on right edge of map	Broadcasts high-accuracy GPS coordinates to all commuters along the corridor.
Live Face Capture	Ride Booking or Create Trip → Tap "Capture Live Verification Photo"	Snap live selfie with face detection for commuter / driver verification.
